*The exterior  
takes centre.*

At Beyond Homes, outdoor spaces are a natural extension of the interior and the true focal point of the Mediterranean lifestyle. **Designed to be enjoyed all year round, the spacious terraces offer a variety of settings to suit every moment of the day.**

The main terrace, connected to the living-dining-kitchen area, features an outdoor dining area, a chill-out area with designer furniture and a private pool, further enhancing the feeling of comfort and privacy.

On the upper floor, the terraces linked to the master en-suite bedroom offer panoramic views, making them the perfect place to relax, read or simply enjoy moments of tranquillity in complete privacy.

Integrated environments.  
***One space,  
many sensations.***

The heart of each property is a spacious, bright space where the living room, dining room and kitchen form a single open-plan, functional and carefully designed space. **This layout brings the rooms together, creating a feeling of spaciousness and visual continuity that enhances comfort and reflects a contemporary lifestyle.**

Thanks to the large floor-to-ceiling windows, natural light floods every corner throughout the day, creating a warm, welcoming atmosphere.

**The interior extends seamlessly to the outside, giving way to a large terrace, private pool and garden, accentuating the light, views and feeling of open space.**
