PARTITIONING

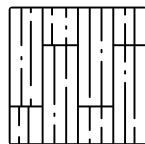

Separation between dwellings by means of dividing walls with sound-resistant brick, in addition to self-supporting wall cladding on both sides with insulation and laminated gypsum boards.

Interior divisions feature self-supporting partition walls with laminated gypsum boards with interior insulation for better thermal and acoustic insulation.

False ceiling of laminated plasterboard, plaster or gypsum.

Access panels and/or removable ceiling in bathrooms for maintenance of air conditioning equipment and/or installations.

FLOORING

Interior flooring in premium SPC XL High Range material. Large format dimensions that enhance spaciousness and harmony of each space. Its refined design, coupled with a state-of-the-art material, offers water resistance, superior durability, easy maintenance and a smooth texture.

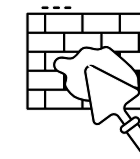

Bathrooms and terraces feature high-quality porcelain tiles.

Garages include continuous reinforced concrete slab pavement.

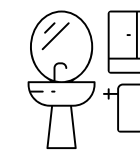

WALL COVERING

Interior walls finished with sophisticated smooth paint for visual harmony in each room.

Bathrooms wet areas showcase large-format, high-quality ceramic tiles, selected in tones that subtly blend in with the design of the environment, enhancing the aesthetics and comfort of the space.

SANITARY FIXTURES

Bathrooms fitted with designer toilets featuring a dual-flush system. Low profile shower tray and shower enclosure in master bathroom.

Premium-brand taps in washbasins and showers, delivering the highest quality standards and blending seamlessly with the overall design aesthetic.

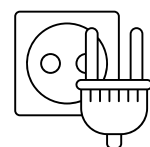

Built-in or countertop washbasins, with taps and fittings as specified in the design.
